

ABOUT WUNDER MOBILITY

We're the fastest growing mobility technology company in Europe.

With 150+ employees of over 30 nationalities, we are the largest and fastest growing mobility technology company in Europe. Our HQ is in Hamburg with further presence in Dortmund and Los Angeles.

We want to become the best mobility technology company in the world.

Our vision is a robust commitment to create a world of individual, intelligent and connected mobility. We create technology to improve the quality of life of people living in cities with efficient traffic, reduced emissions and noise.

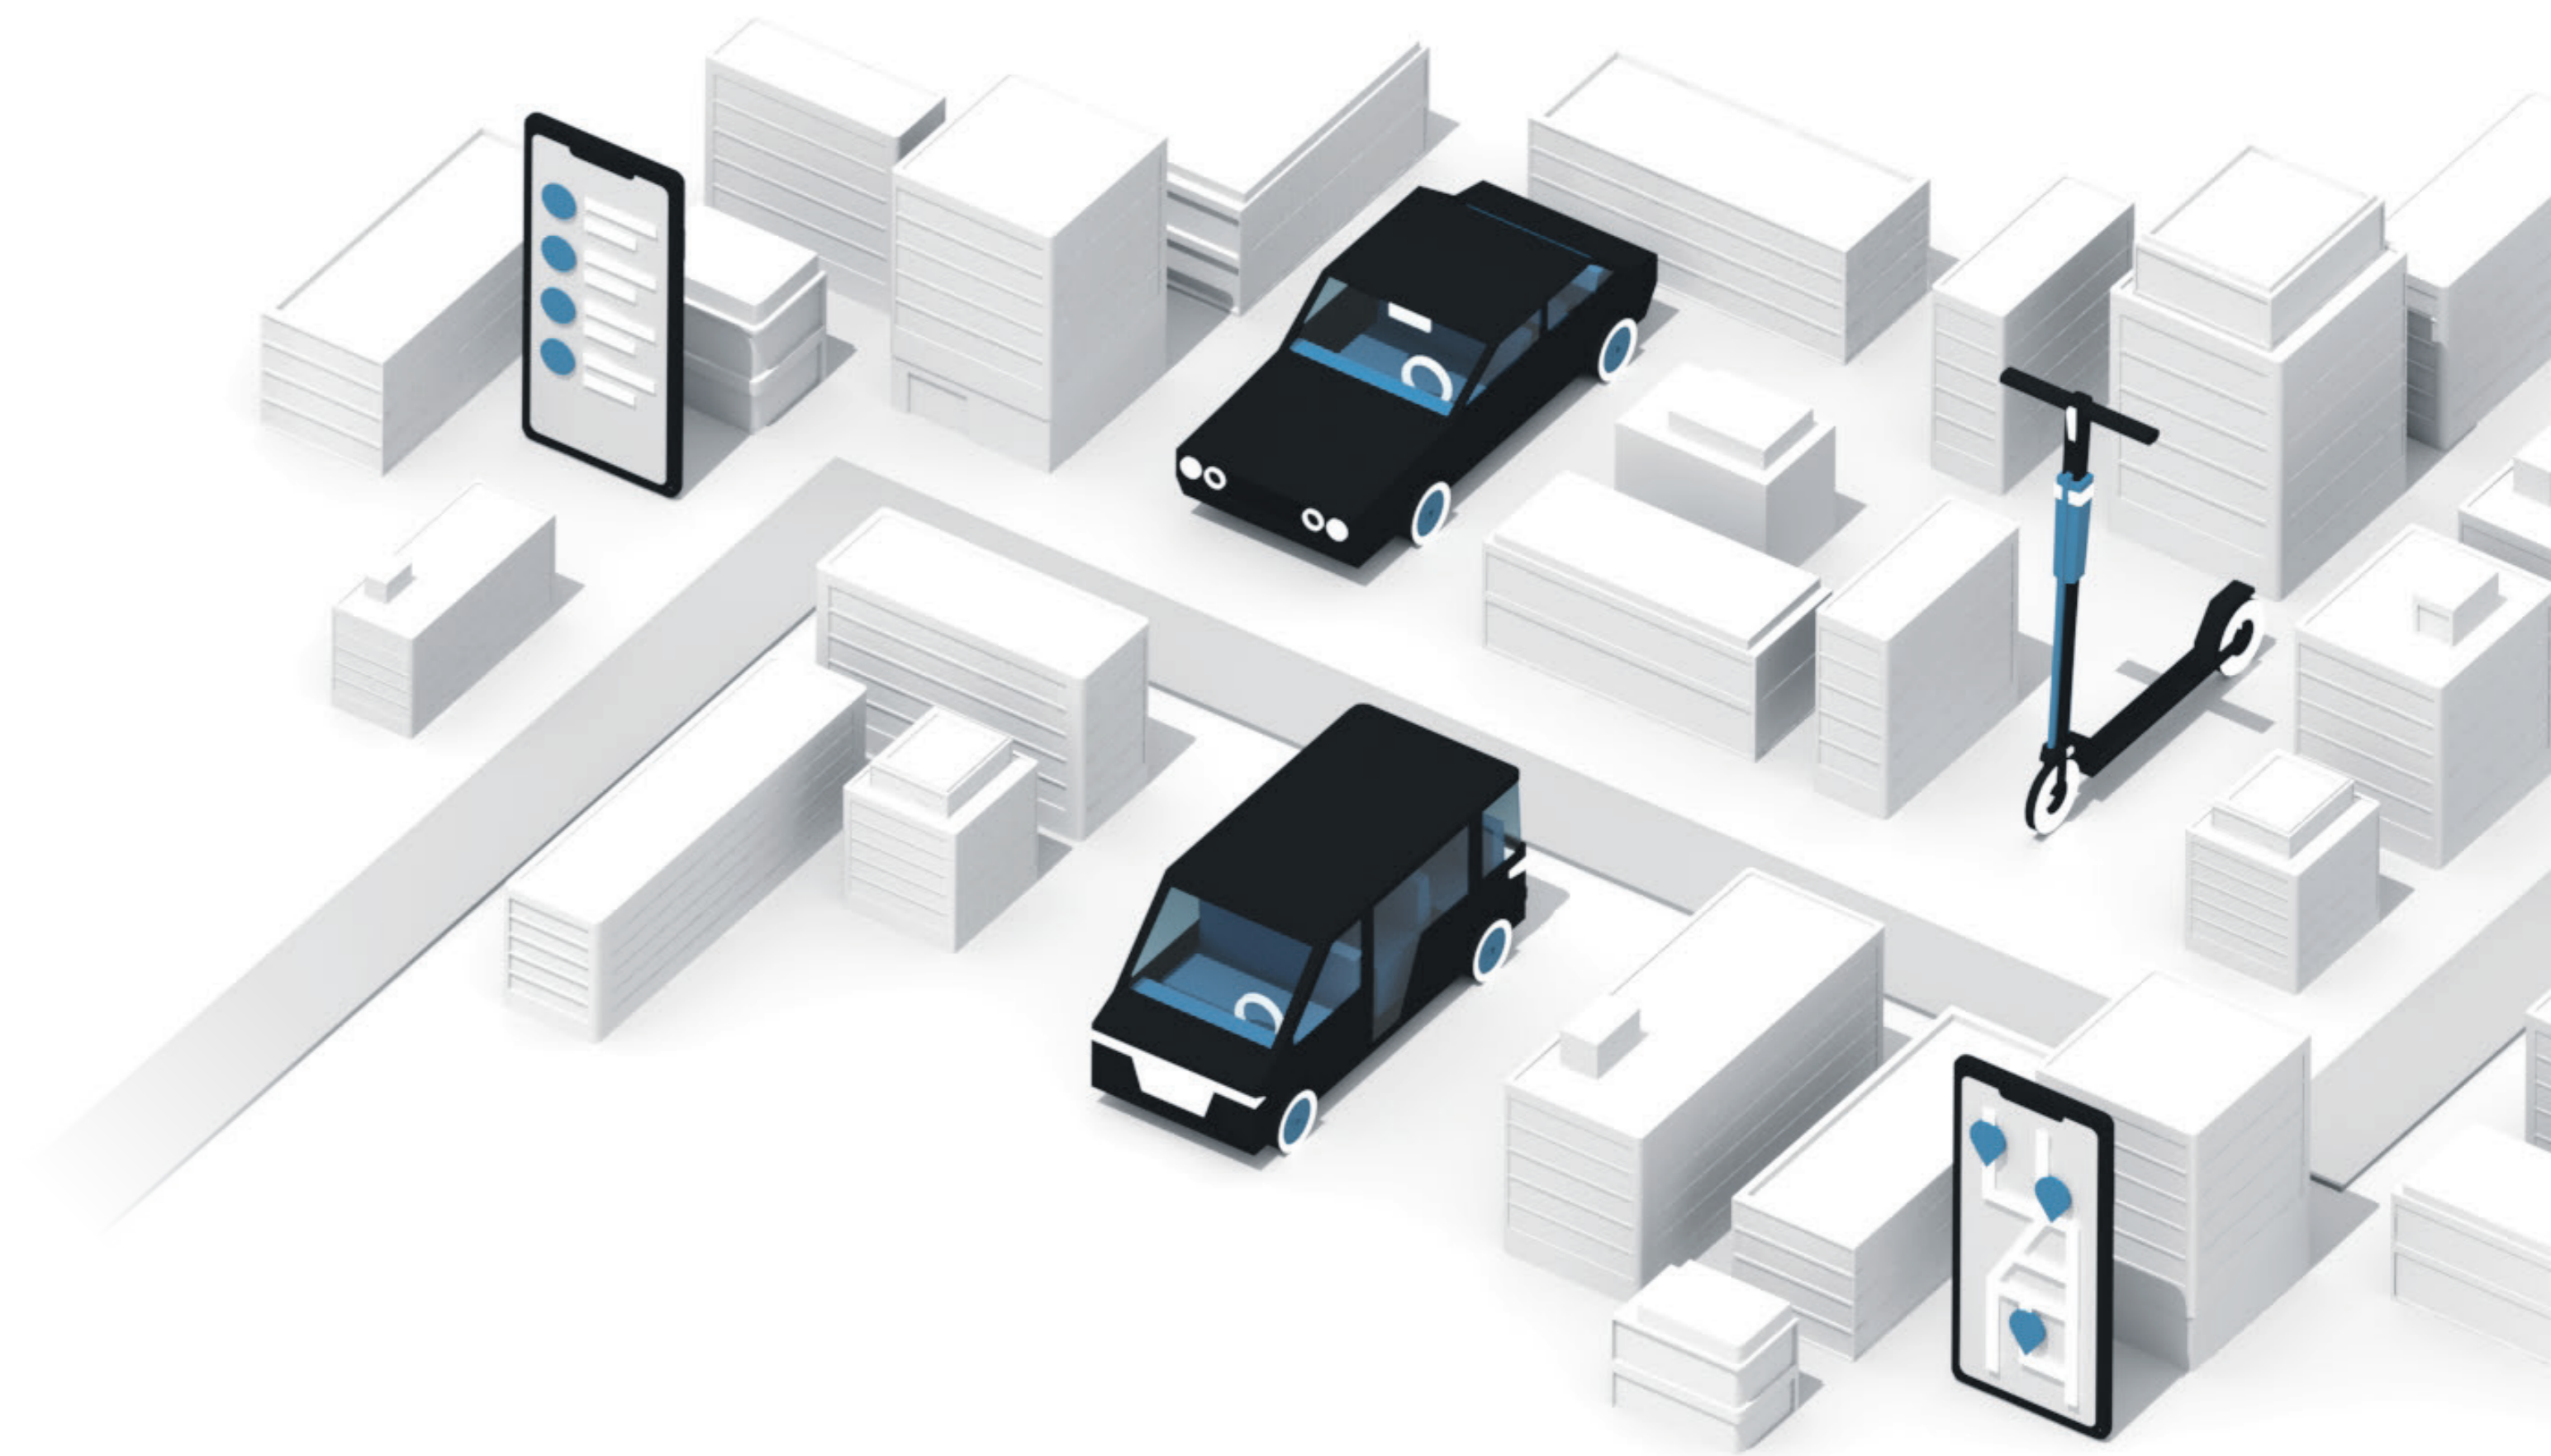

We are driving the development of innovative mobility solutions forward.

Mobility is a prerequisite for the creation of a holistic society with economic growth, self-fulfillment and individual success. This is why we want to use our technology to help cities and businesses develop sustainable mobility solutions.

Our technology is used in more than 100 cities on six continents to connect more than 1 million devices to our platform and facilitating over 12 million trips worldwide.

OUR SOLUTIONS

Connect end-to-end services to create a connected ecosystem of sustainable mobility. We are the only global company that conceptualizes and scales all variations of new mobility services as part of its technology solutions.

Wunder Fleet

Wunder Fleet delivers technology to power all sharing services in the mobility ecosystem ranging from bikes to electric scooters and cars.

Wunder Rent

Wunder Rent is a keyless, paperless, fully online software platform enabling all rental business types to make the switch to self-service.

Wunder Shuttle

Wunder Shuttle is an integrated software solution for all "shuttle-on-demand services", which can be integrated seamlessly with existing means of transport.

Wunder Park

Wunder Park automates the parking process and allows for advance booking of parking spots at the workplace, reducing costs and increasing employee satisfaction.

Wunder Carpool

Wunder Carpool is an innovative technology solution for ride-sharing and commuter carpooling that aims to reduce traffic density and improve air quality levels in cities.

Wunder City

Wunder City is an analytical tool that enables cities to adapt to changes in mobility in their area and improve the quality of life for their citizens.
